
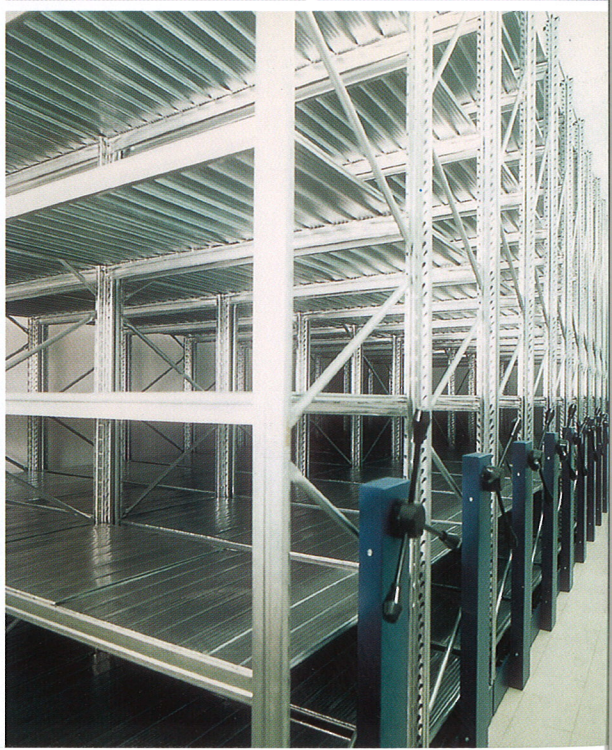
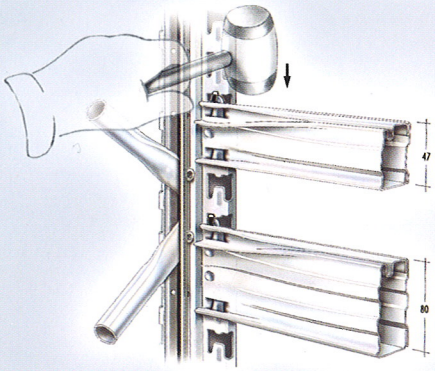
UNIRACK

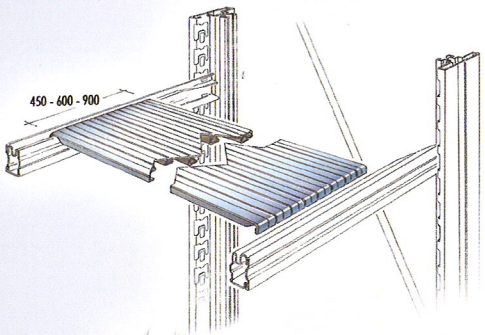
MODULAR STEEL STORAGE SYSTEMS

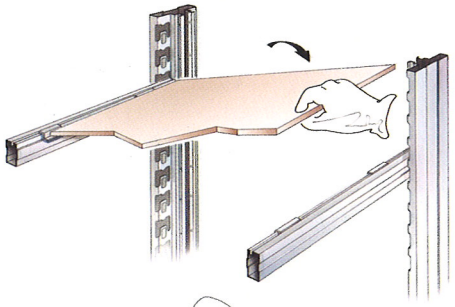
METAISISTEM®

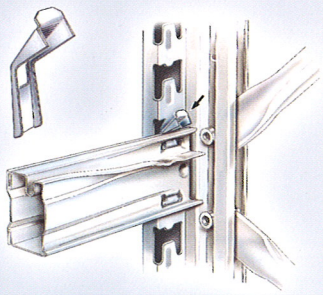


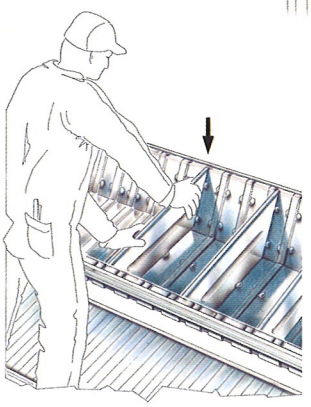
UNIRACK



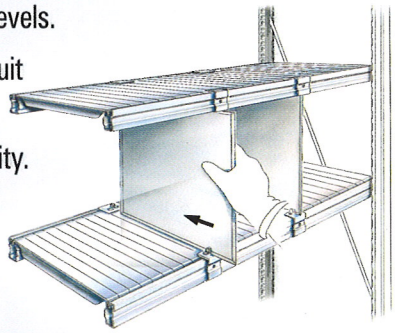


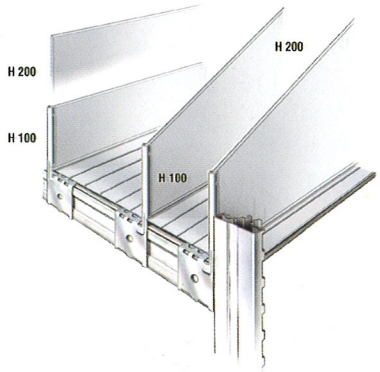






- Clip together components for ease and speed of assembly.
- Bolted frames and boltless "clip-in" horizontal storage levels.
- Extensive range of bay widths, depths and heights to suit every application.
- Inter-changeable accessories available for total versatility.
- Lightweight system combining strength and flexibility with high load capacity.
- Multi-tier and floor supporting capabilities.
- Excellent price competitiveness for best value.





UNIRACK is a fully adjustable, extremely versatile and adaptable system, allowing reconfiguration with the utmost of ease. From shelving to bins, hanging garment and tyre racking, up to two-tier installations.

UNIRACK's wide range of accessories such as dividers, bin fronts, lockers, mobile ladders, cladding and identification label holders transform a basic system into a tailor made installation.

UNIRACK comes in a bright zinc plated finish. The product is made from certified, prime quality, zinc coated, high tensile steel, certified according to EN 10204 3.1B, ensuring superb performance and a high level of durability.

UNIRACK carries the German TÜV-GS approval mark. The product meets the requirements of the Equipment Safety Law.

UNIRACK: the most versatile system on the planet; tough and unbeatable value!
